MAP 5-1 LANDS ENROLLED IN FARMLAND PRESERVATION Town of Lodi Columbia County, Wisconsin

 Past Farmland
Preservation Participants ¹

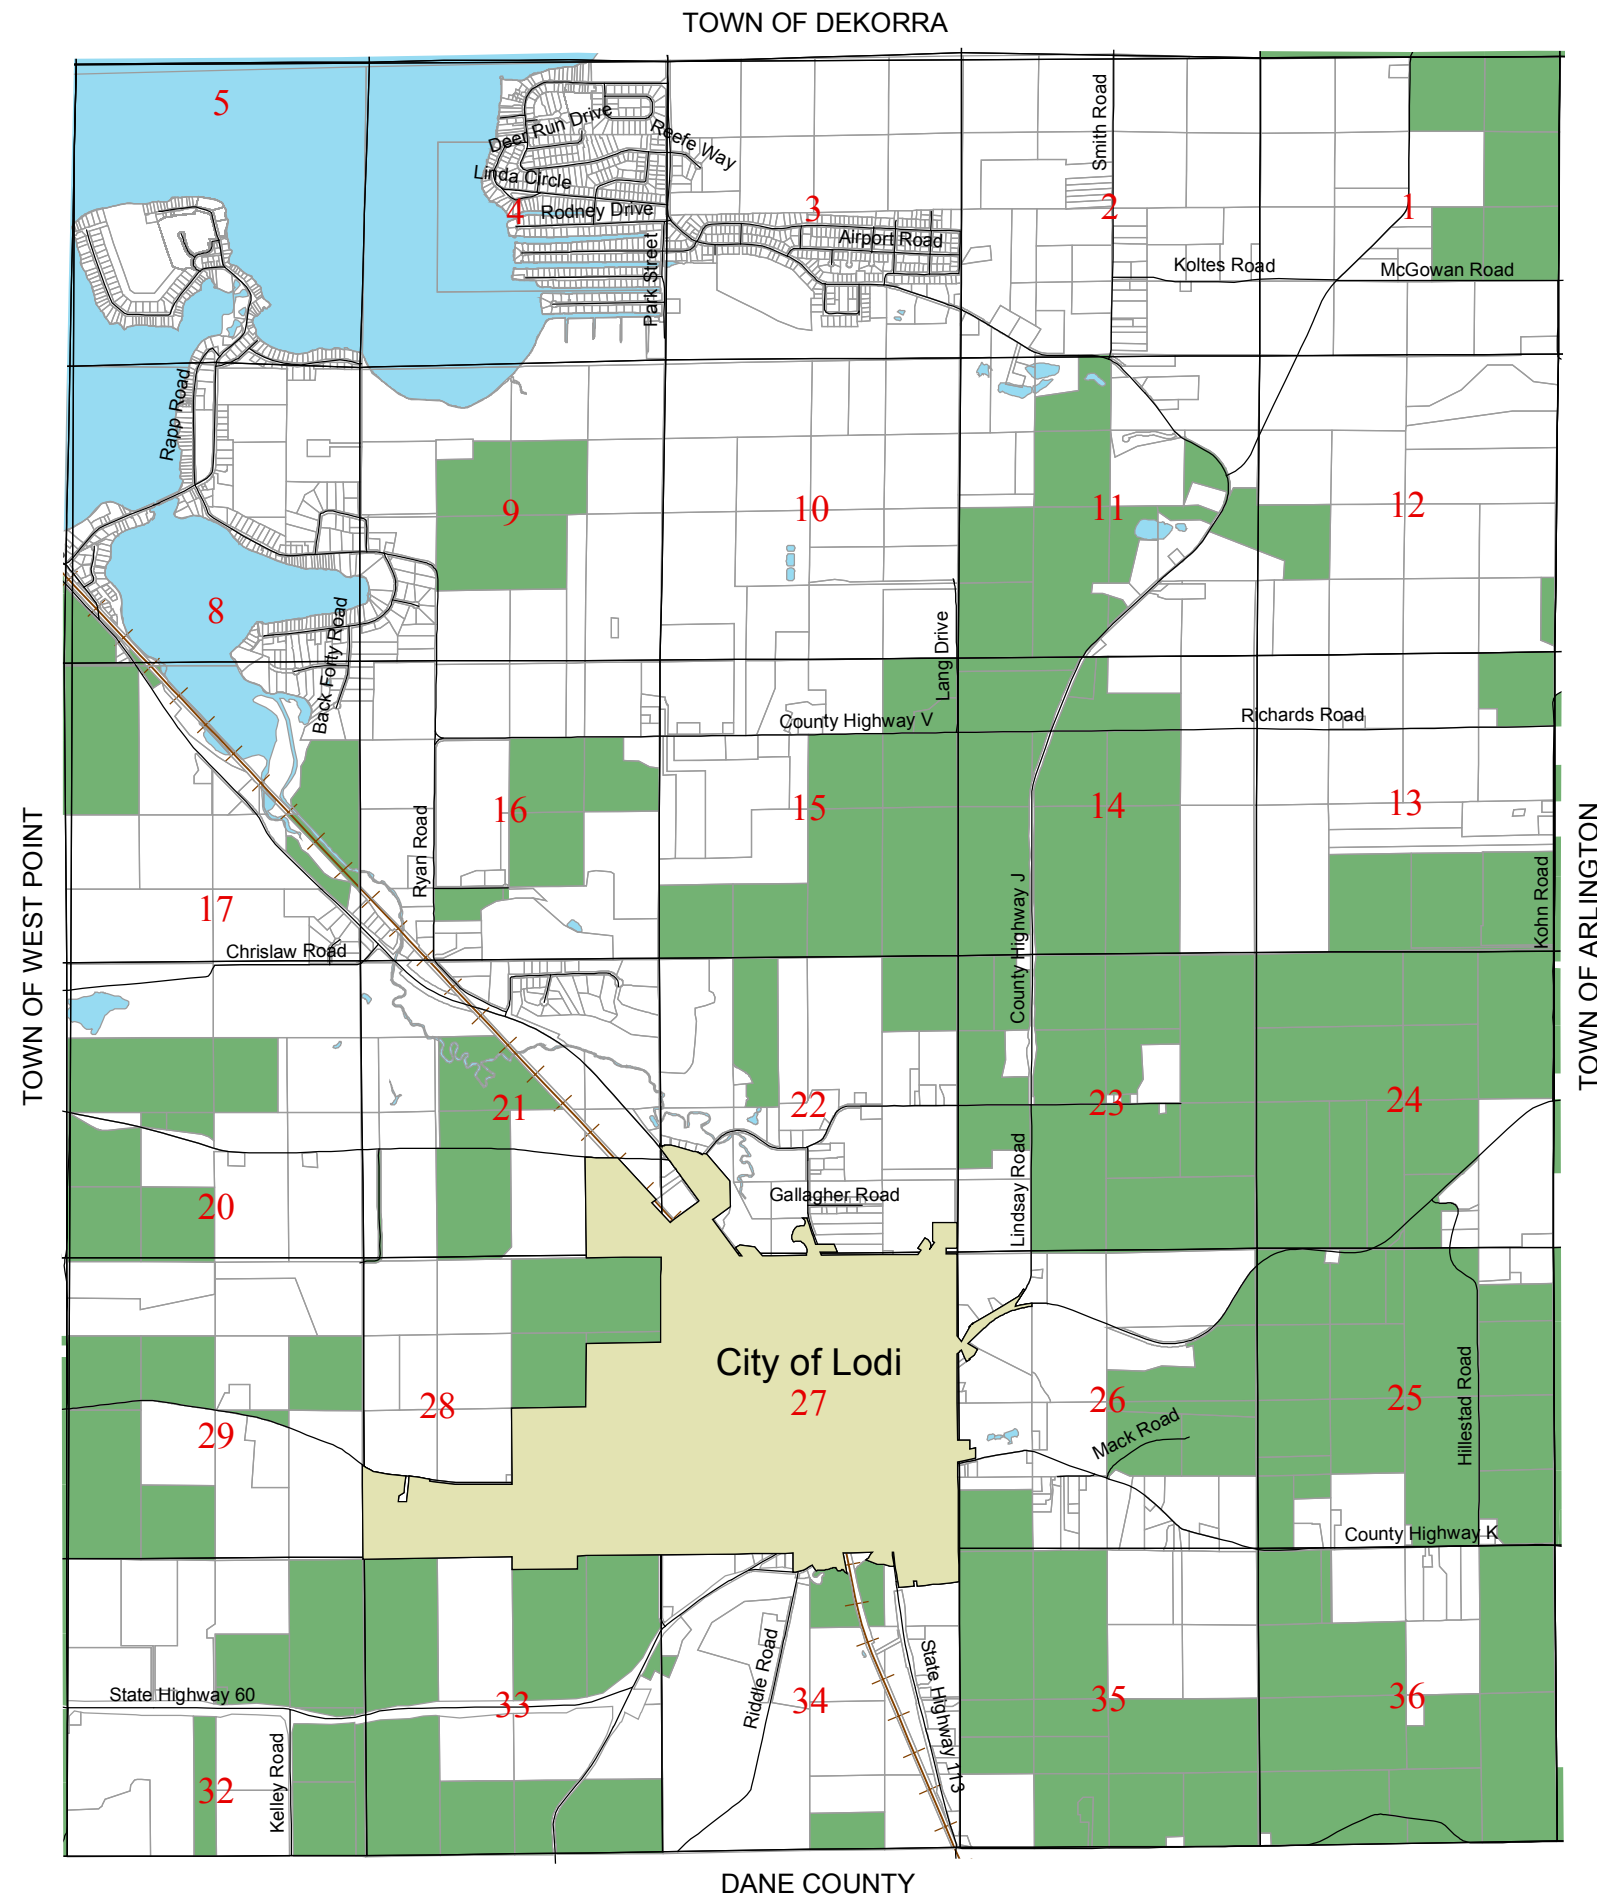

1. The properties above indicate those owners who at one time had been enrolled in the Farmland Preservation Program from its inception in the early 1970's to October 8, 2001. This map does not illustrate current lands under the Farmland Preservation Program except for the towns of Scott and Randolph (Farmland Certificates). New data is being gathered for the current lands under Farmland Preservation and is expected to be completed in 2006.

This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

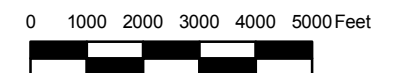

MAP 5-5 ENVIRONMENTAL CORRIDORS Town of Lodi Columbia County, Wisconsin

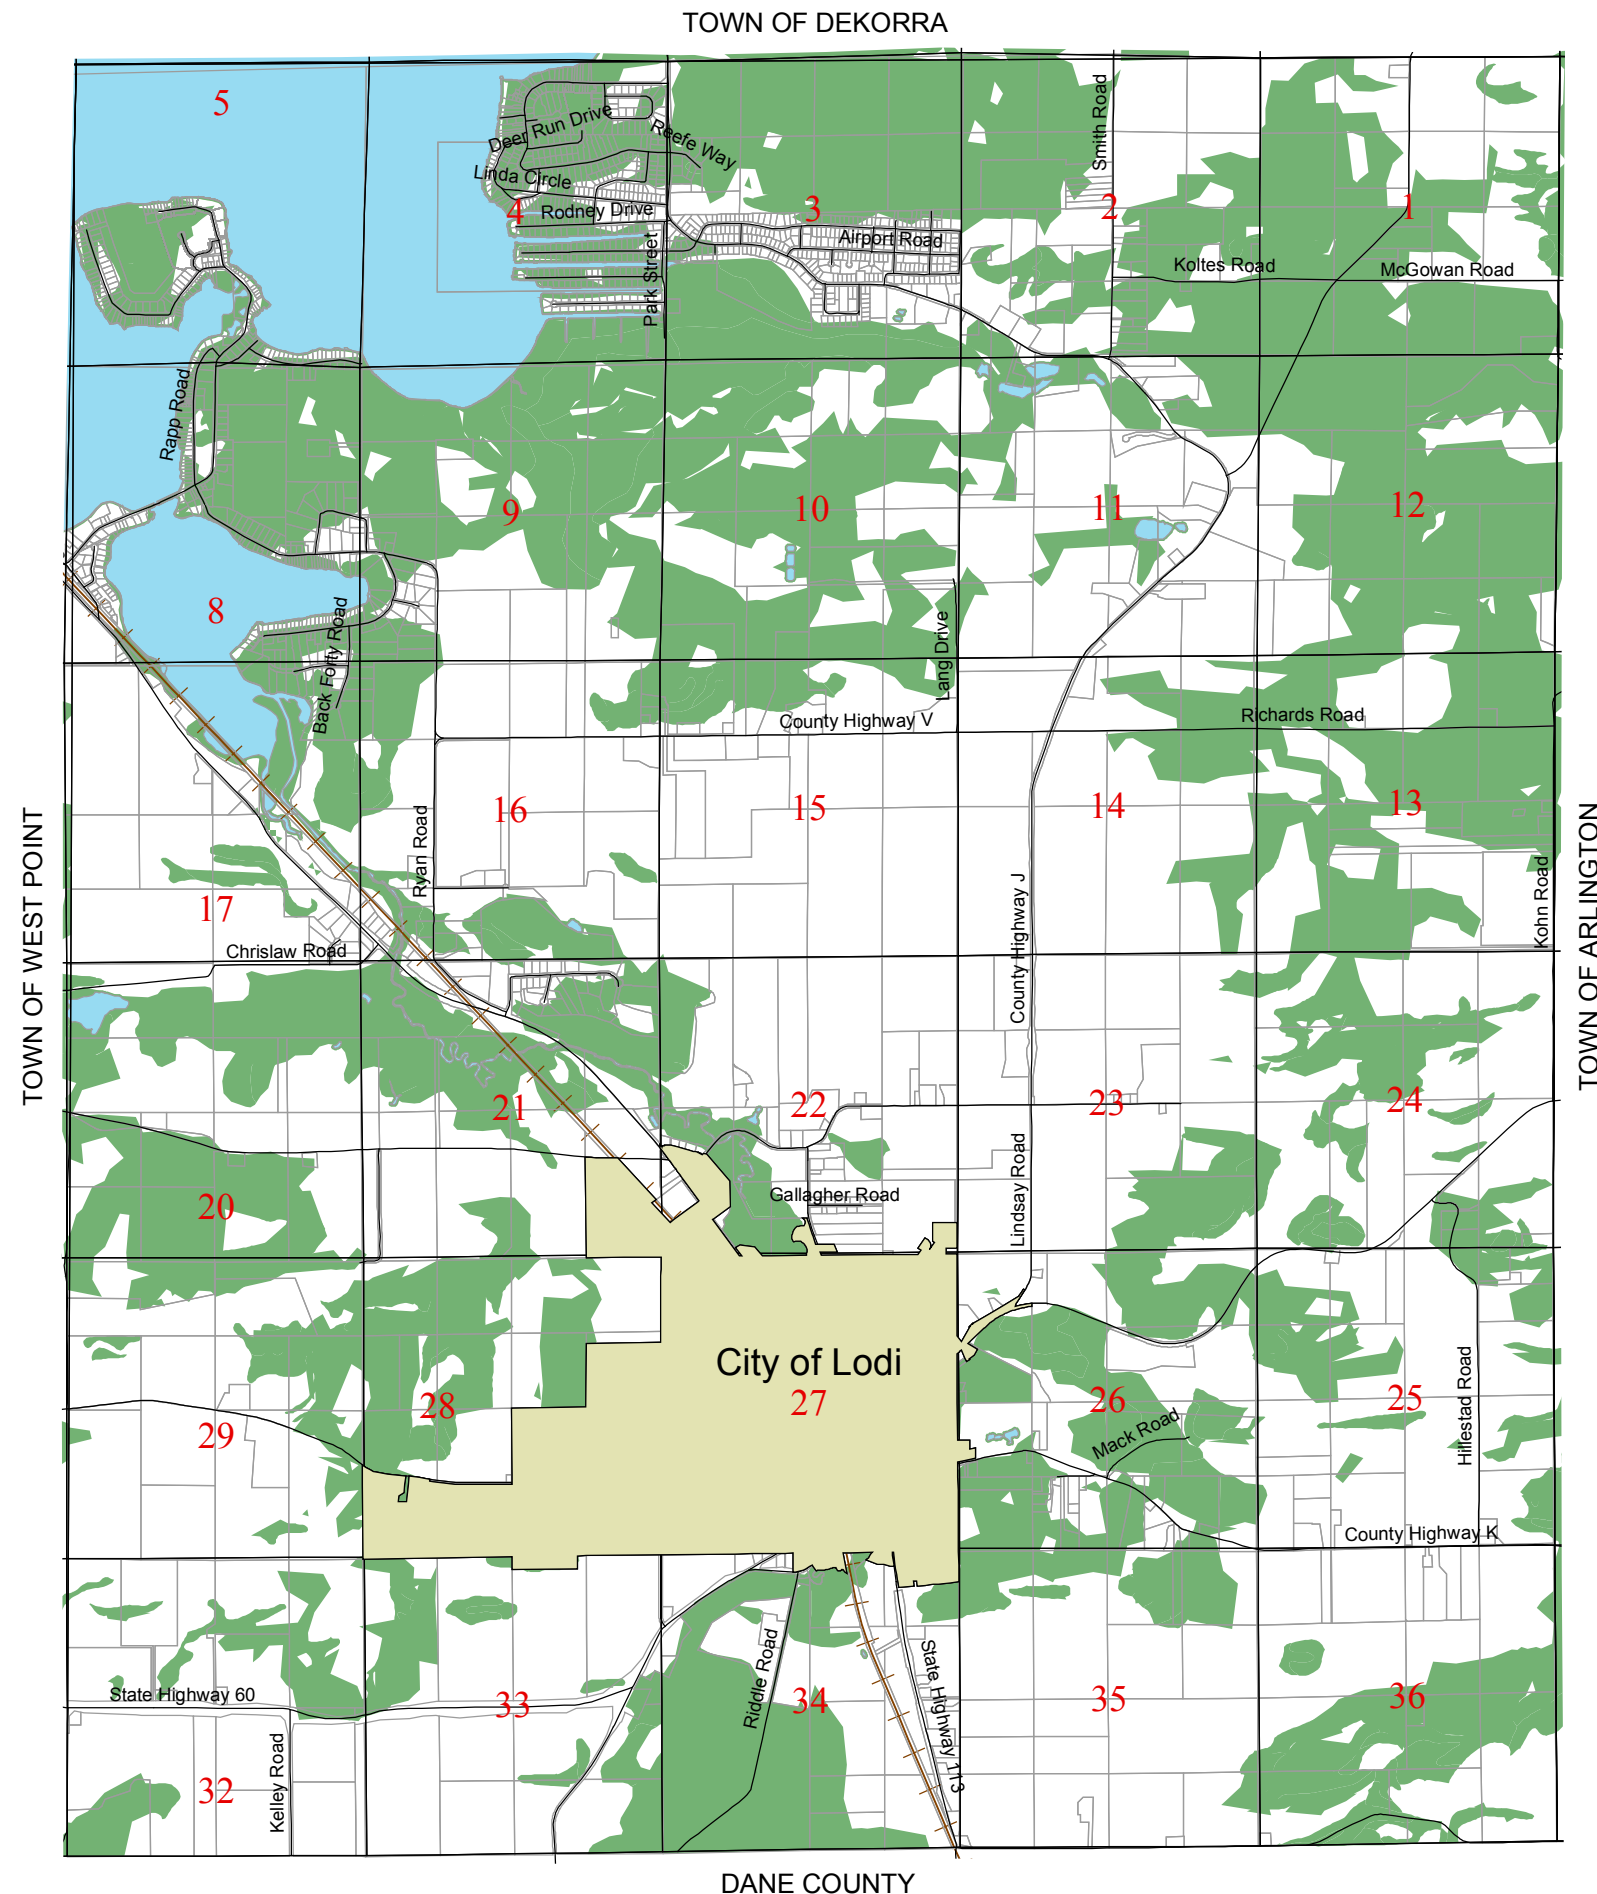

- Surface Water
- Environmental Corridor
- Floodplains¹**
- Wetlands²**
- 35 foot Buffers on all water³**
- Public Open Space**
- Slopes 12% and greater⁴**
- Shallow Soils⁵**
- Woodlots 20 Acres or greater⁶**

1. Floodplains (100 year) extracted from FEMA Flood Insurance Rating Maps. Floodplain delineations are for flood insurance purposes only. All areas subject of flooding in the community are not necessarily shown.
2. Wetlands extracted from WDNR's Wisconsin Wetlands Inventory, which includes mapped wetlands at least 5 acres in size derived mainly from air photo interpretation. All wetlands subject to state or federal regulations may not be shown.
3. County shoreland zoning regulations require 75 foot building setbacks on all navigable waterways. A vegetative buffer of 35 feet is suggested on all waterways.
4. Slopes extracted from USGS 7.5' digital elevation models
5. Shallow soils extracted from USDA NRCS-SSURGO data. Shallow soils included are approximately 4 feet or less from the surface. Depth to Restriction such as bedrock, cemented pan, or abrupt textural change, that is nearly continuous layer that has one or more physical, chemical, or thermal properties that significantly reduce the movement of water.
6. Forested areas extracted from WDNR's landcover dataset. Landcover data set is a raster representation of vegetation/land cover for the State.

MAP 5-6 **RARE, THREATENED & ENDANGERED SPECIES** Town of Lodi Columbia County, Wisconsin

Species and/or Natural Community

- Aquatic
- Terrestrial
- Both
- Township Occurrence

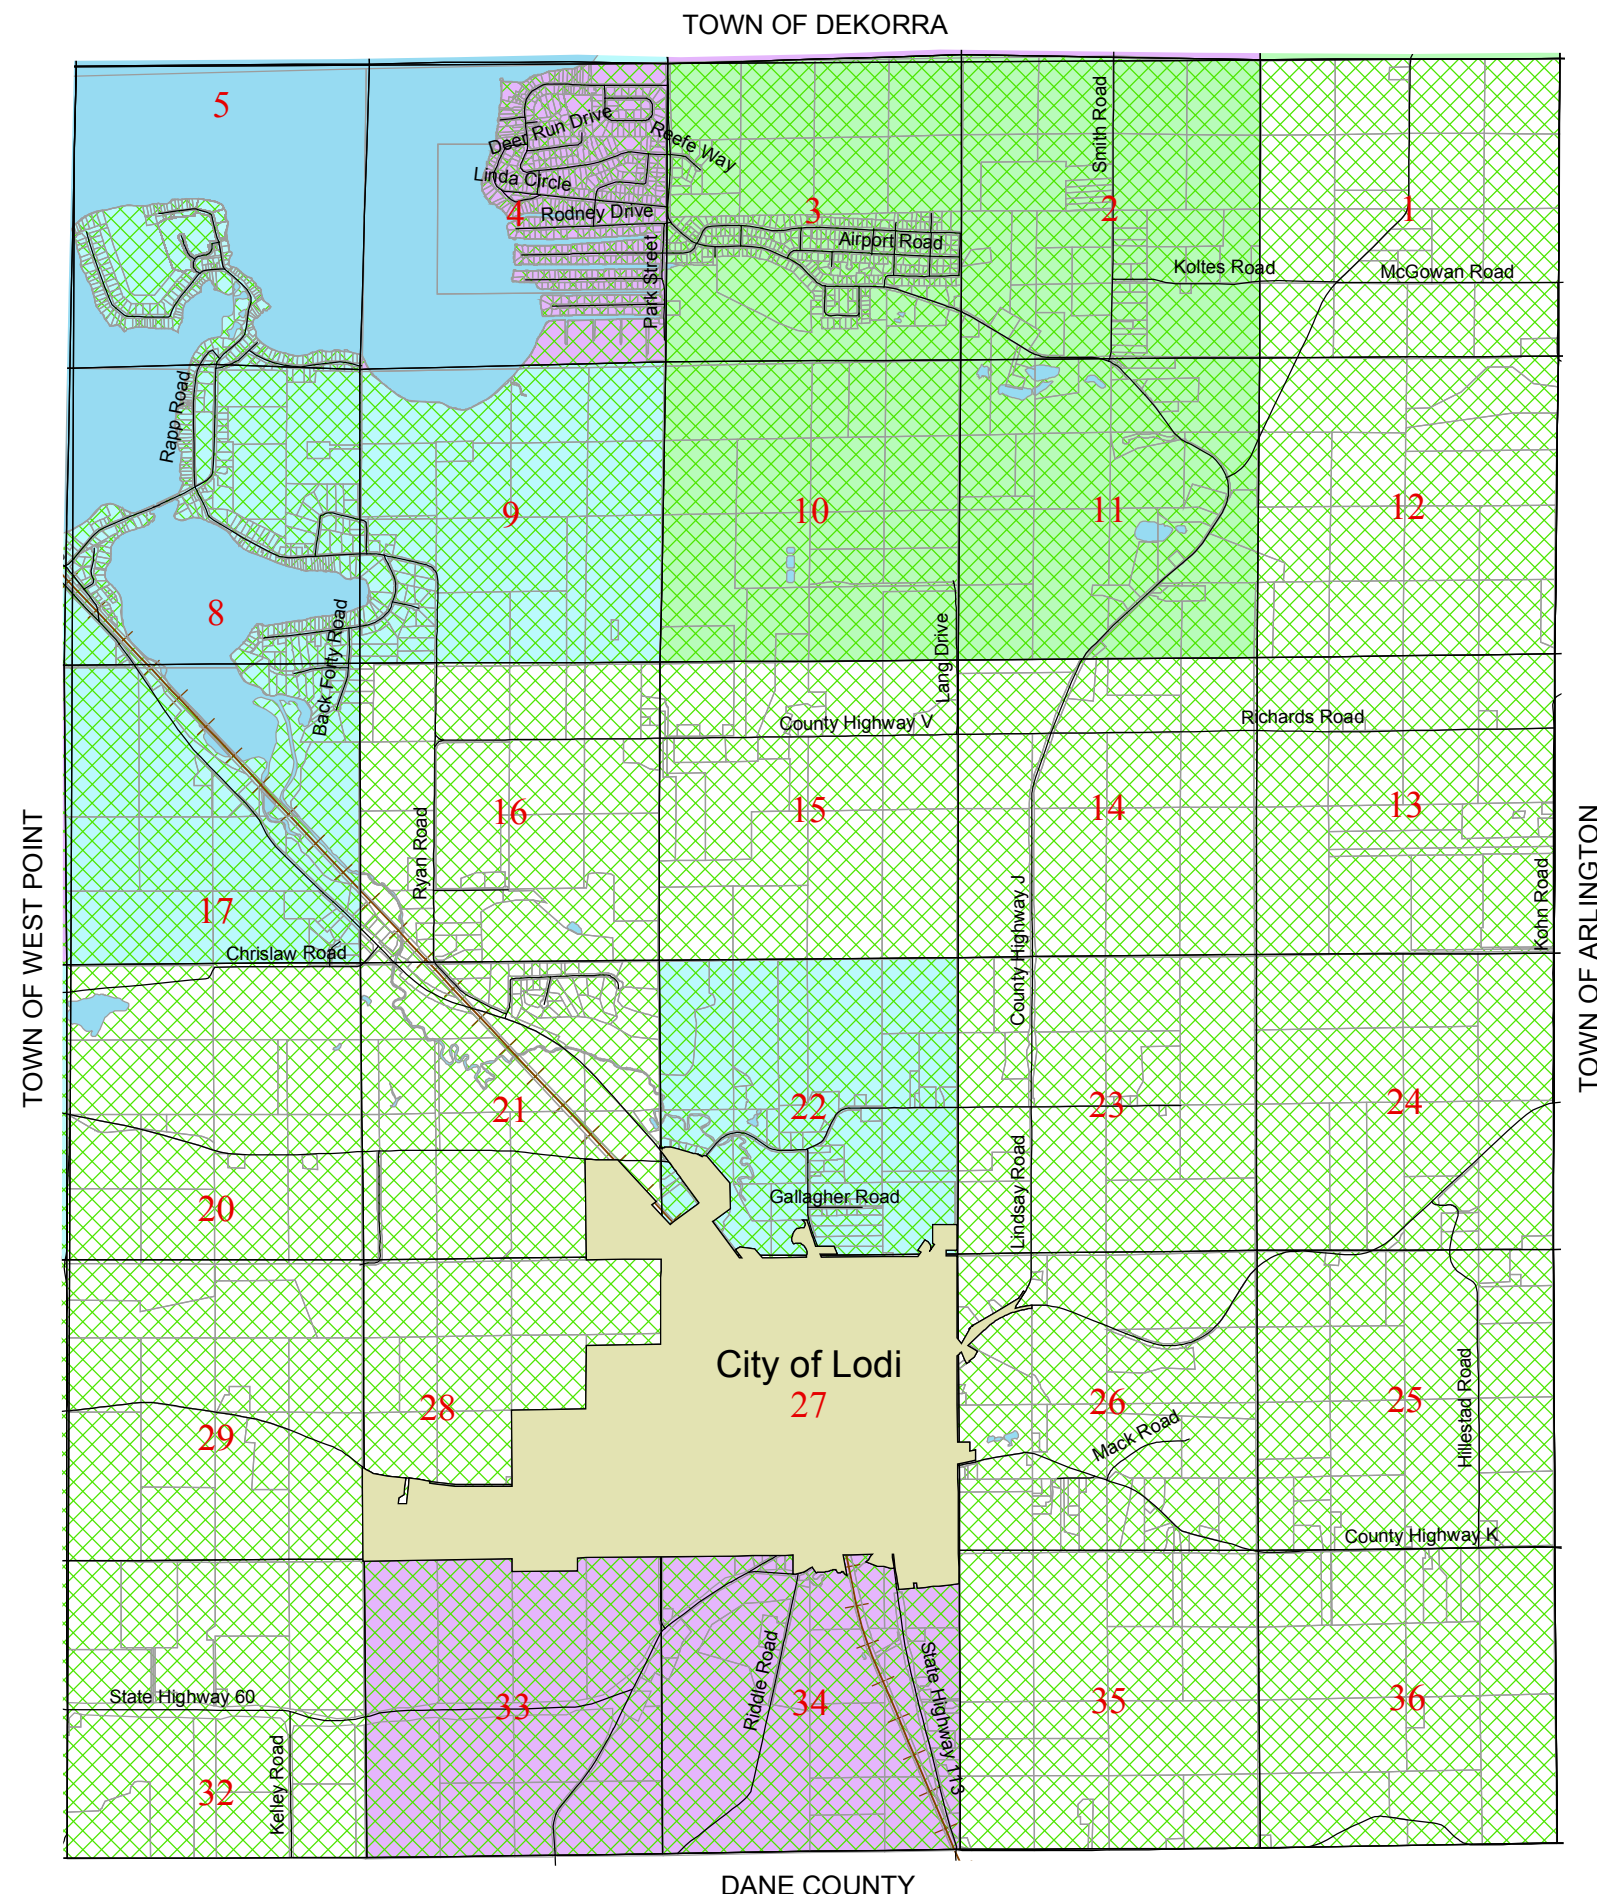

This map represents the known occurrences of rare species and natural communities that have been recorded in the Wisconsin Natural Heritage Inventory (NHI). Colored sections indicate the presence of one or more occurrences within that section. Hatched townships indicate one or more occurrences reported only at the township level.

This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

Created August 1, 2005 by RNT

MAP 5-7 STREAMS, SURFACE WATER & WATERSHEDS Town of Lodi Columbia County, Wisconsin

- Streams¹
- Surface Water¹
- DNR Watersheds²

1. The hydrology coverage was created to represent rivers, water bodies and other hydrographic phenomena in Columbia County. Hydrologic features were derived from the April 1995 flight with a flight height of 10,000 feet.

2. Watersheds as delineated by the Wisconsin DNR. The data was compiled from 1:24,000-scale topographic maps. DNR watershed delineations generally indicate areas that drain into a common river system or lake, buy may also be based on DNR basin management criteria.

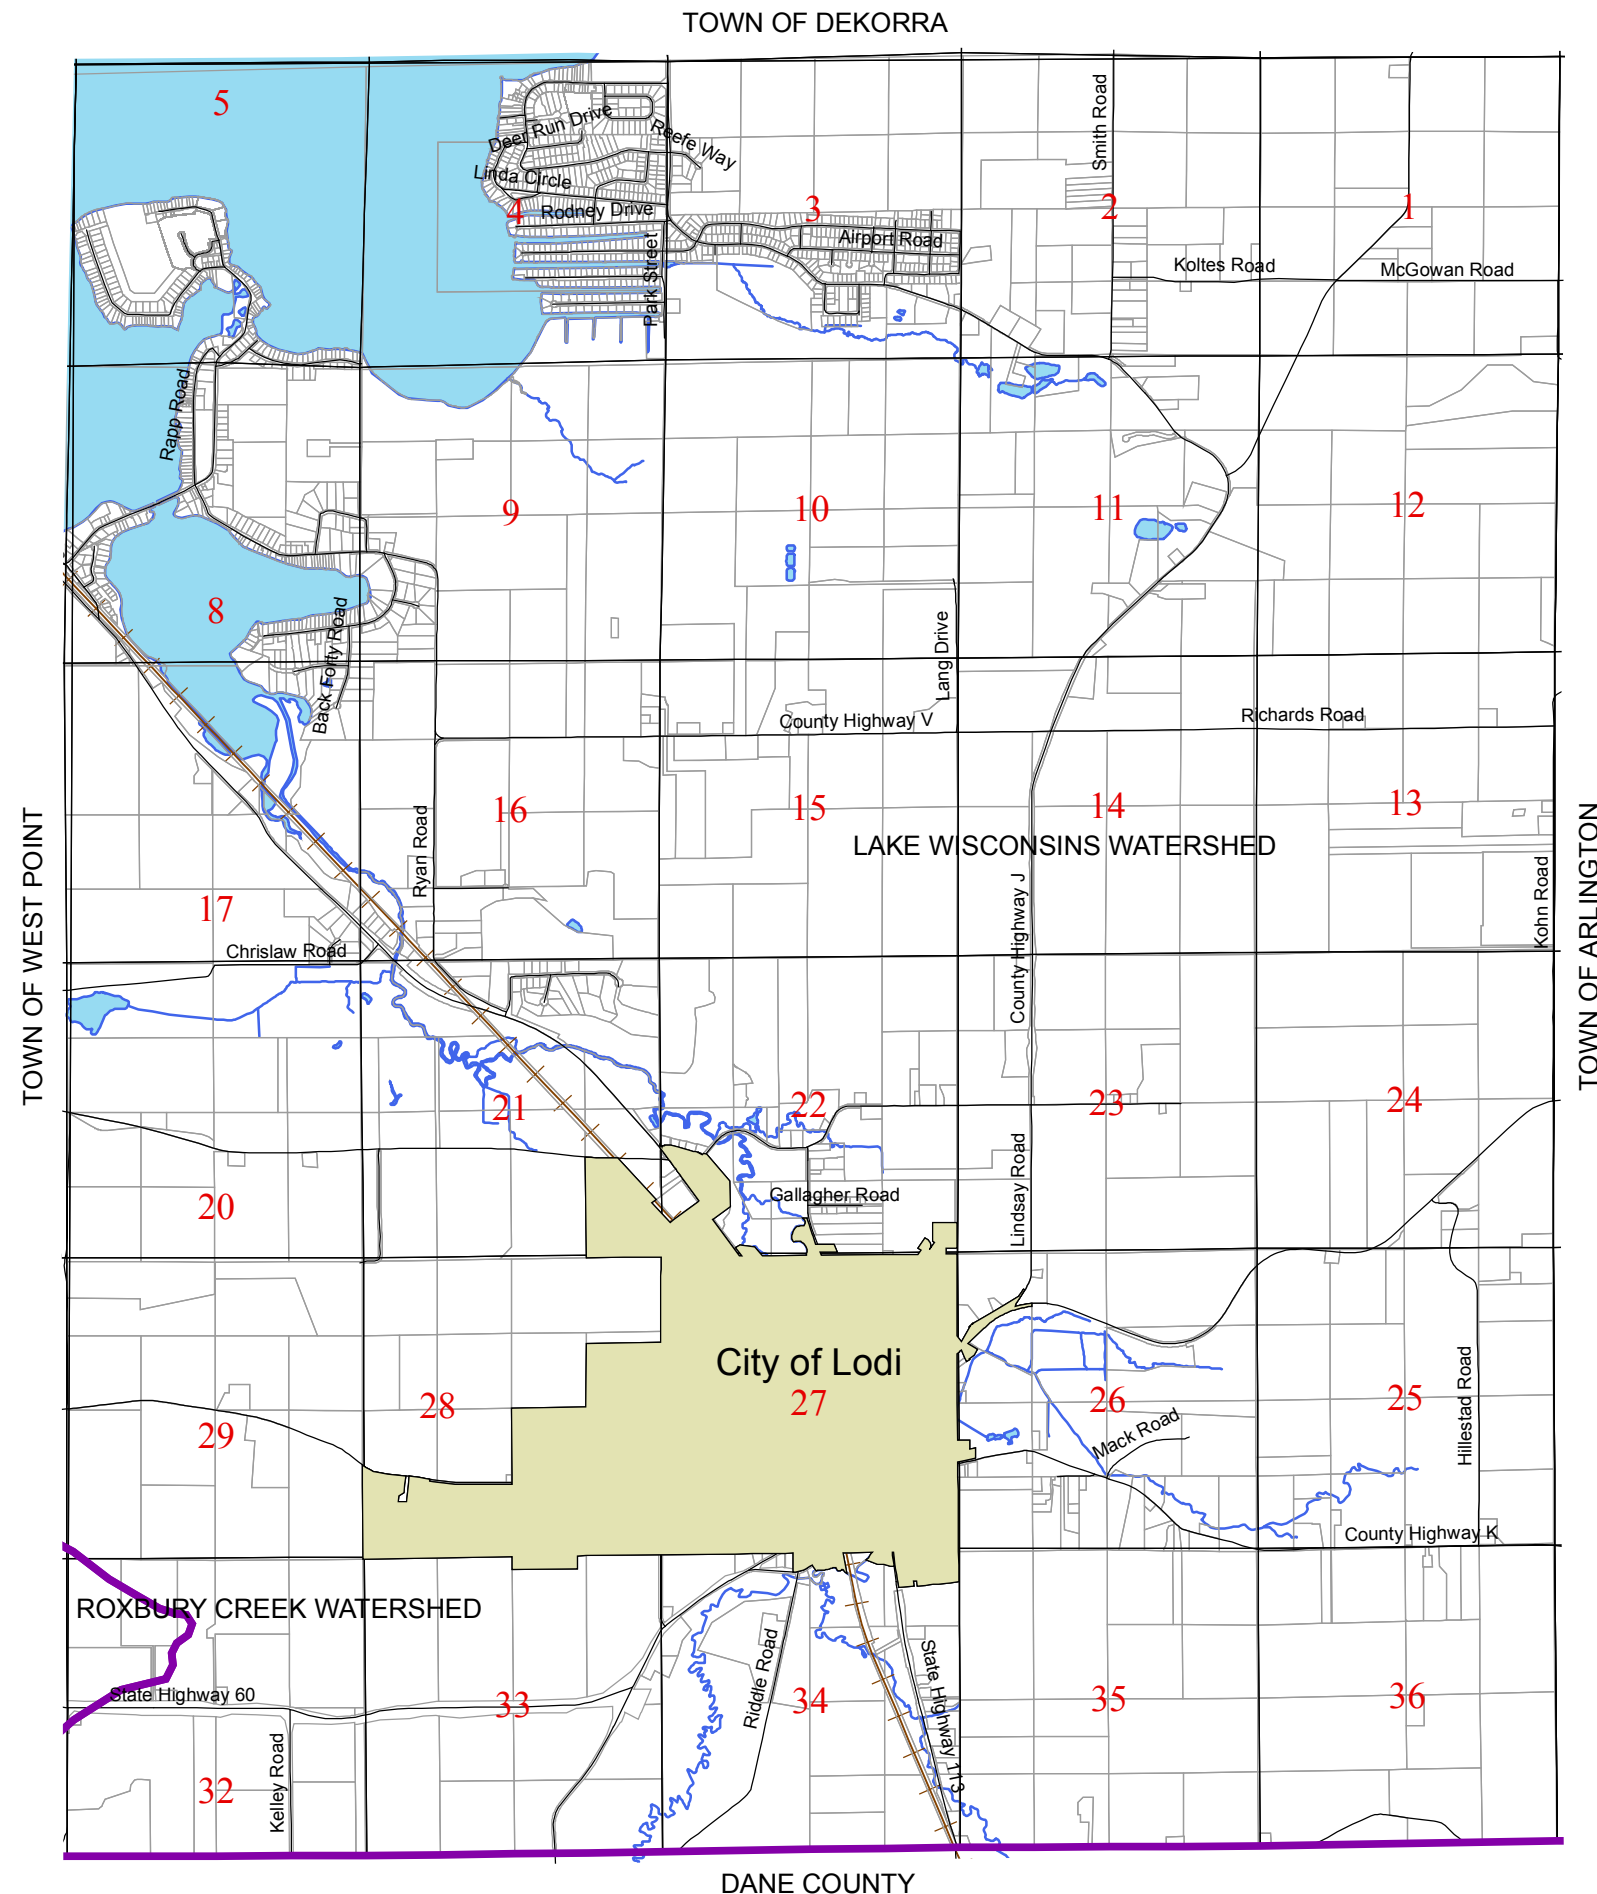

This drawing is neither a legally recorded map nor a survey and is not intrnded to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

Created July 26, 2005 by RNT

MAP 5-8
FLOODPLAINS
Town of Lodi
Columbia County,
Wisconsin

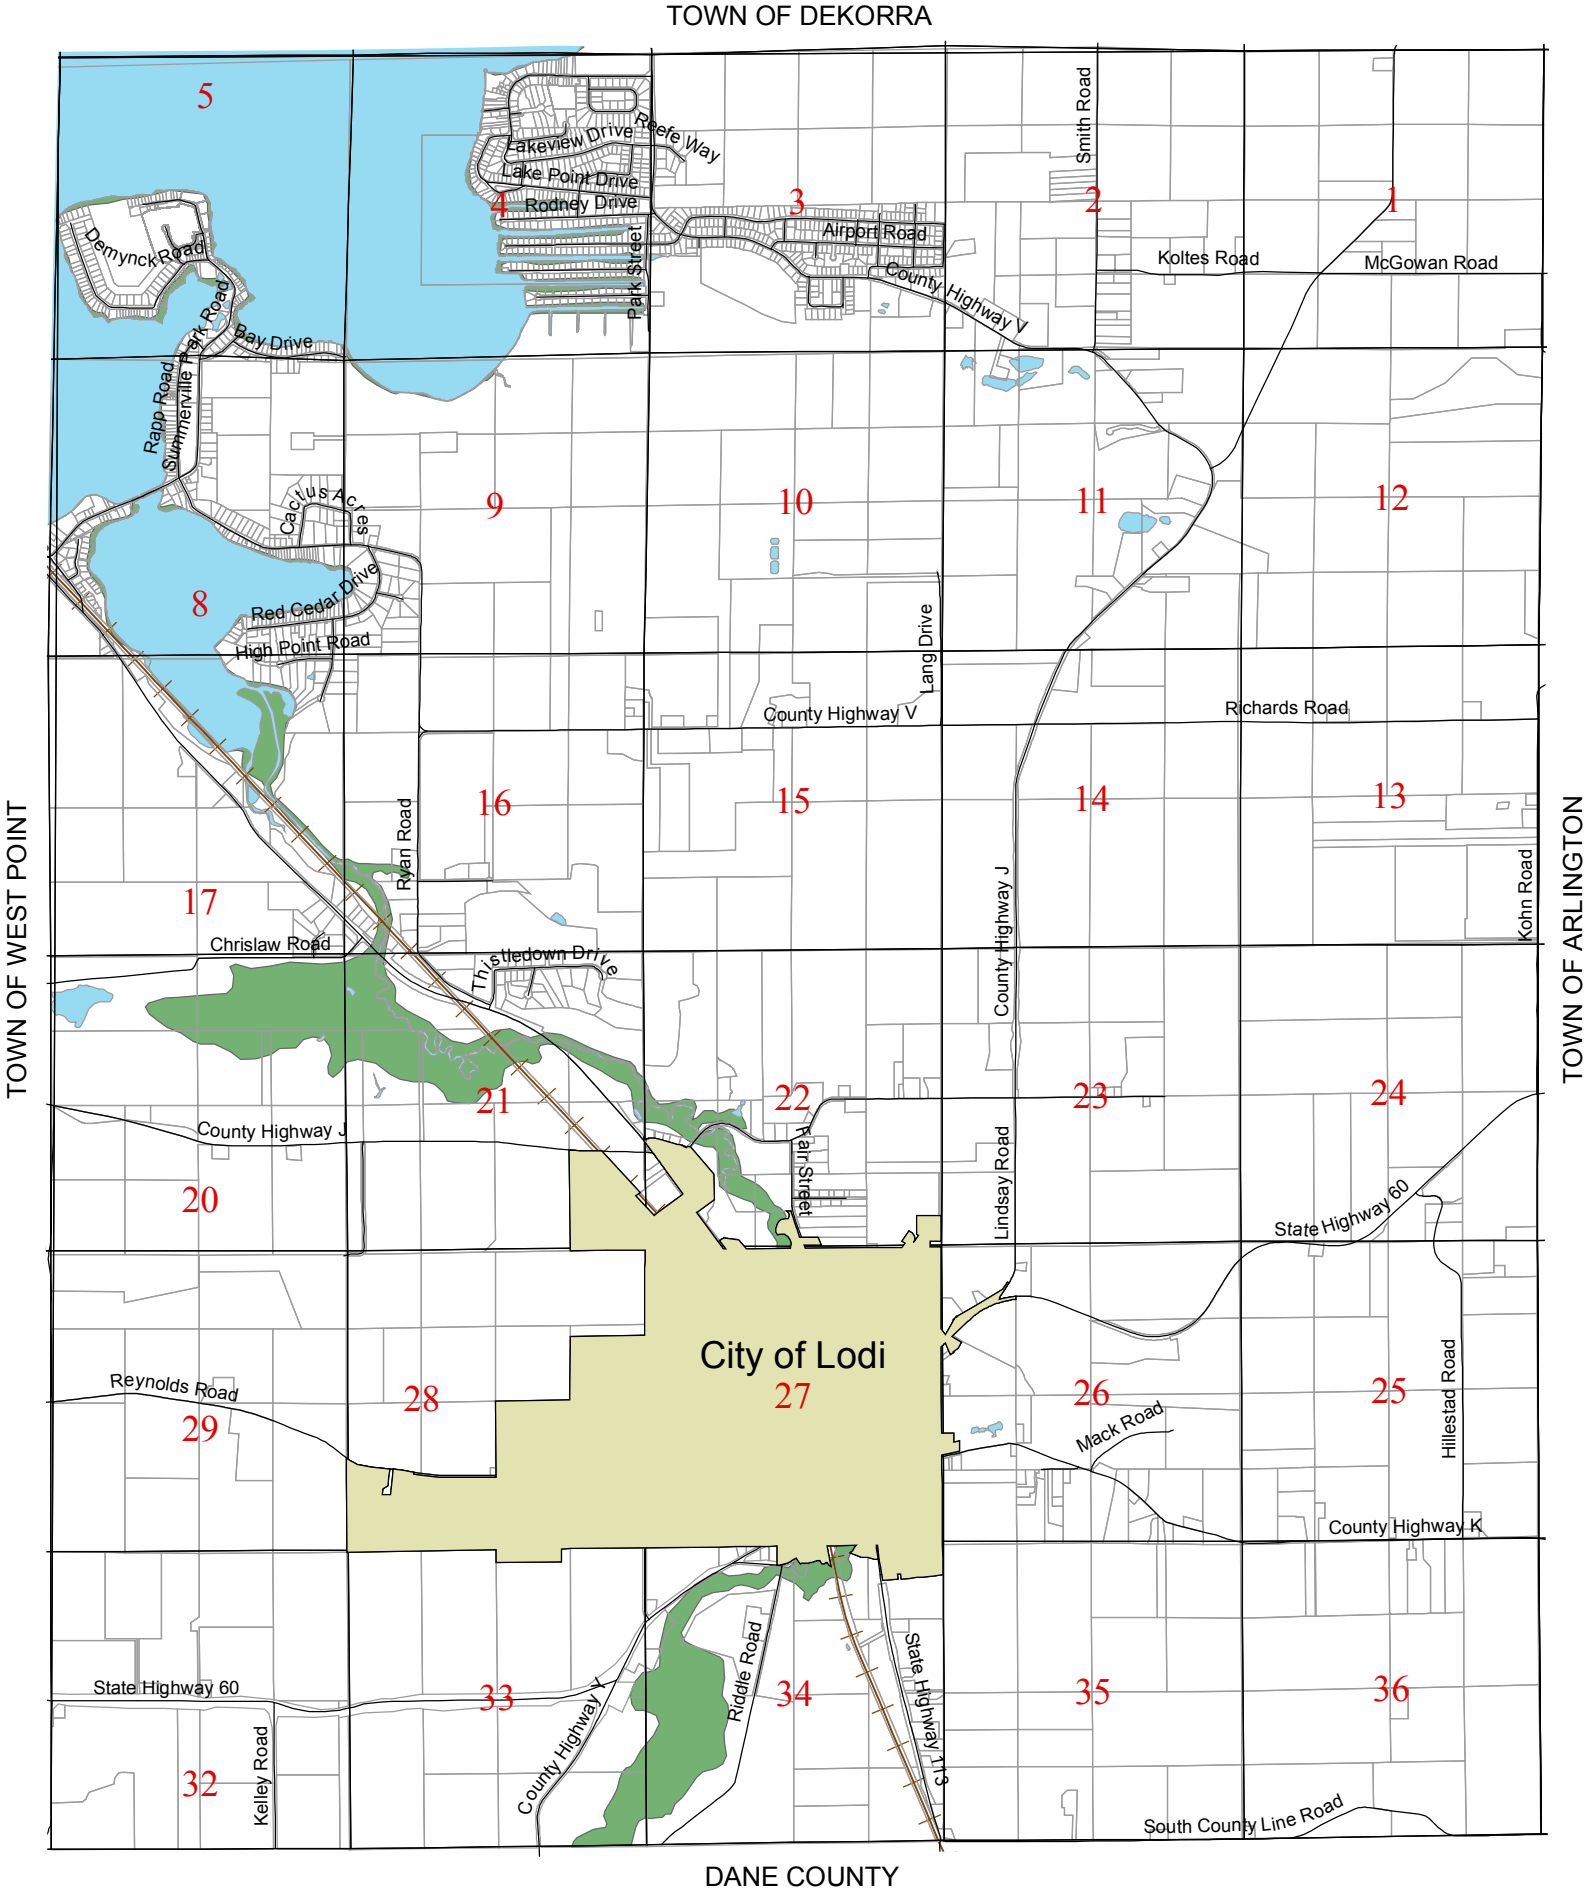

-  100 Year Floodplain
-  500 Year Floodplain

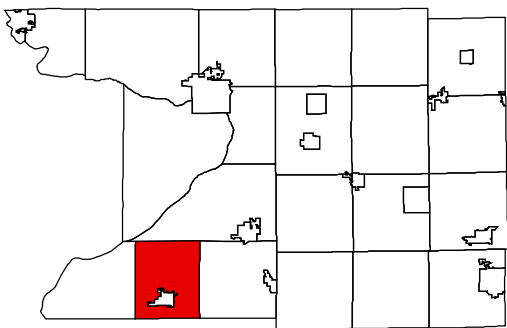

Floodplains delineated from Flood Insurance Rate Map (FIRM) dated September 15, 1983. Flood risk information presented on FIRMs is based on historic, meteorologic, hydrologic, and hydraulic data, as well as open-space conditions, flood control works, and development. To prepare FIRMs that illustrate the extent of flood hazard in a flood prone community, FEMA conducts engineering studies referred to as Flood Insurance Studies (FISs). Using information gathered in these studies, FEMA engineers and cartographers delineate Special Flood Hazard Areas (FHAs) on FIRMs. A new Flood Insurance Study has been prepared for areas in Columbia County on the Wisconsin & Baraboo Rivers and expected to be released in 2006.

This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

MAP 5-9
WETLANDS &
HYDRIC SOILS
Town of Lodi
Columbia County,
Wisconsin

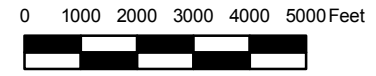

-  DNR Wetlands¹
-  Hydric Soils²

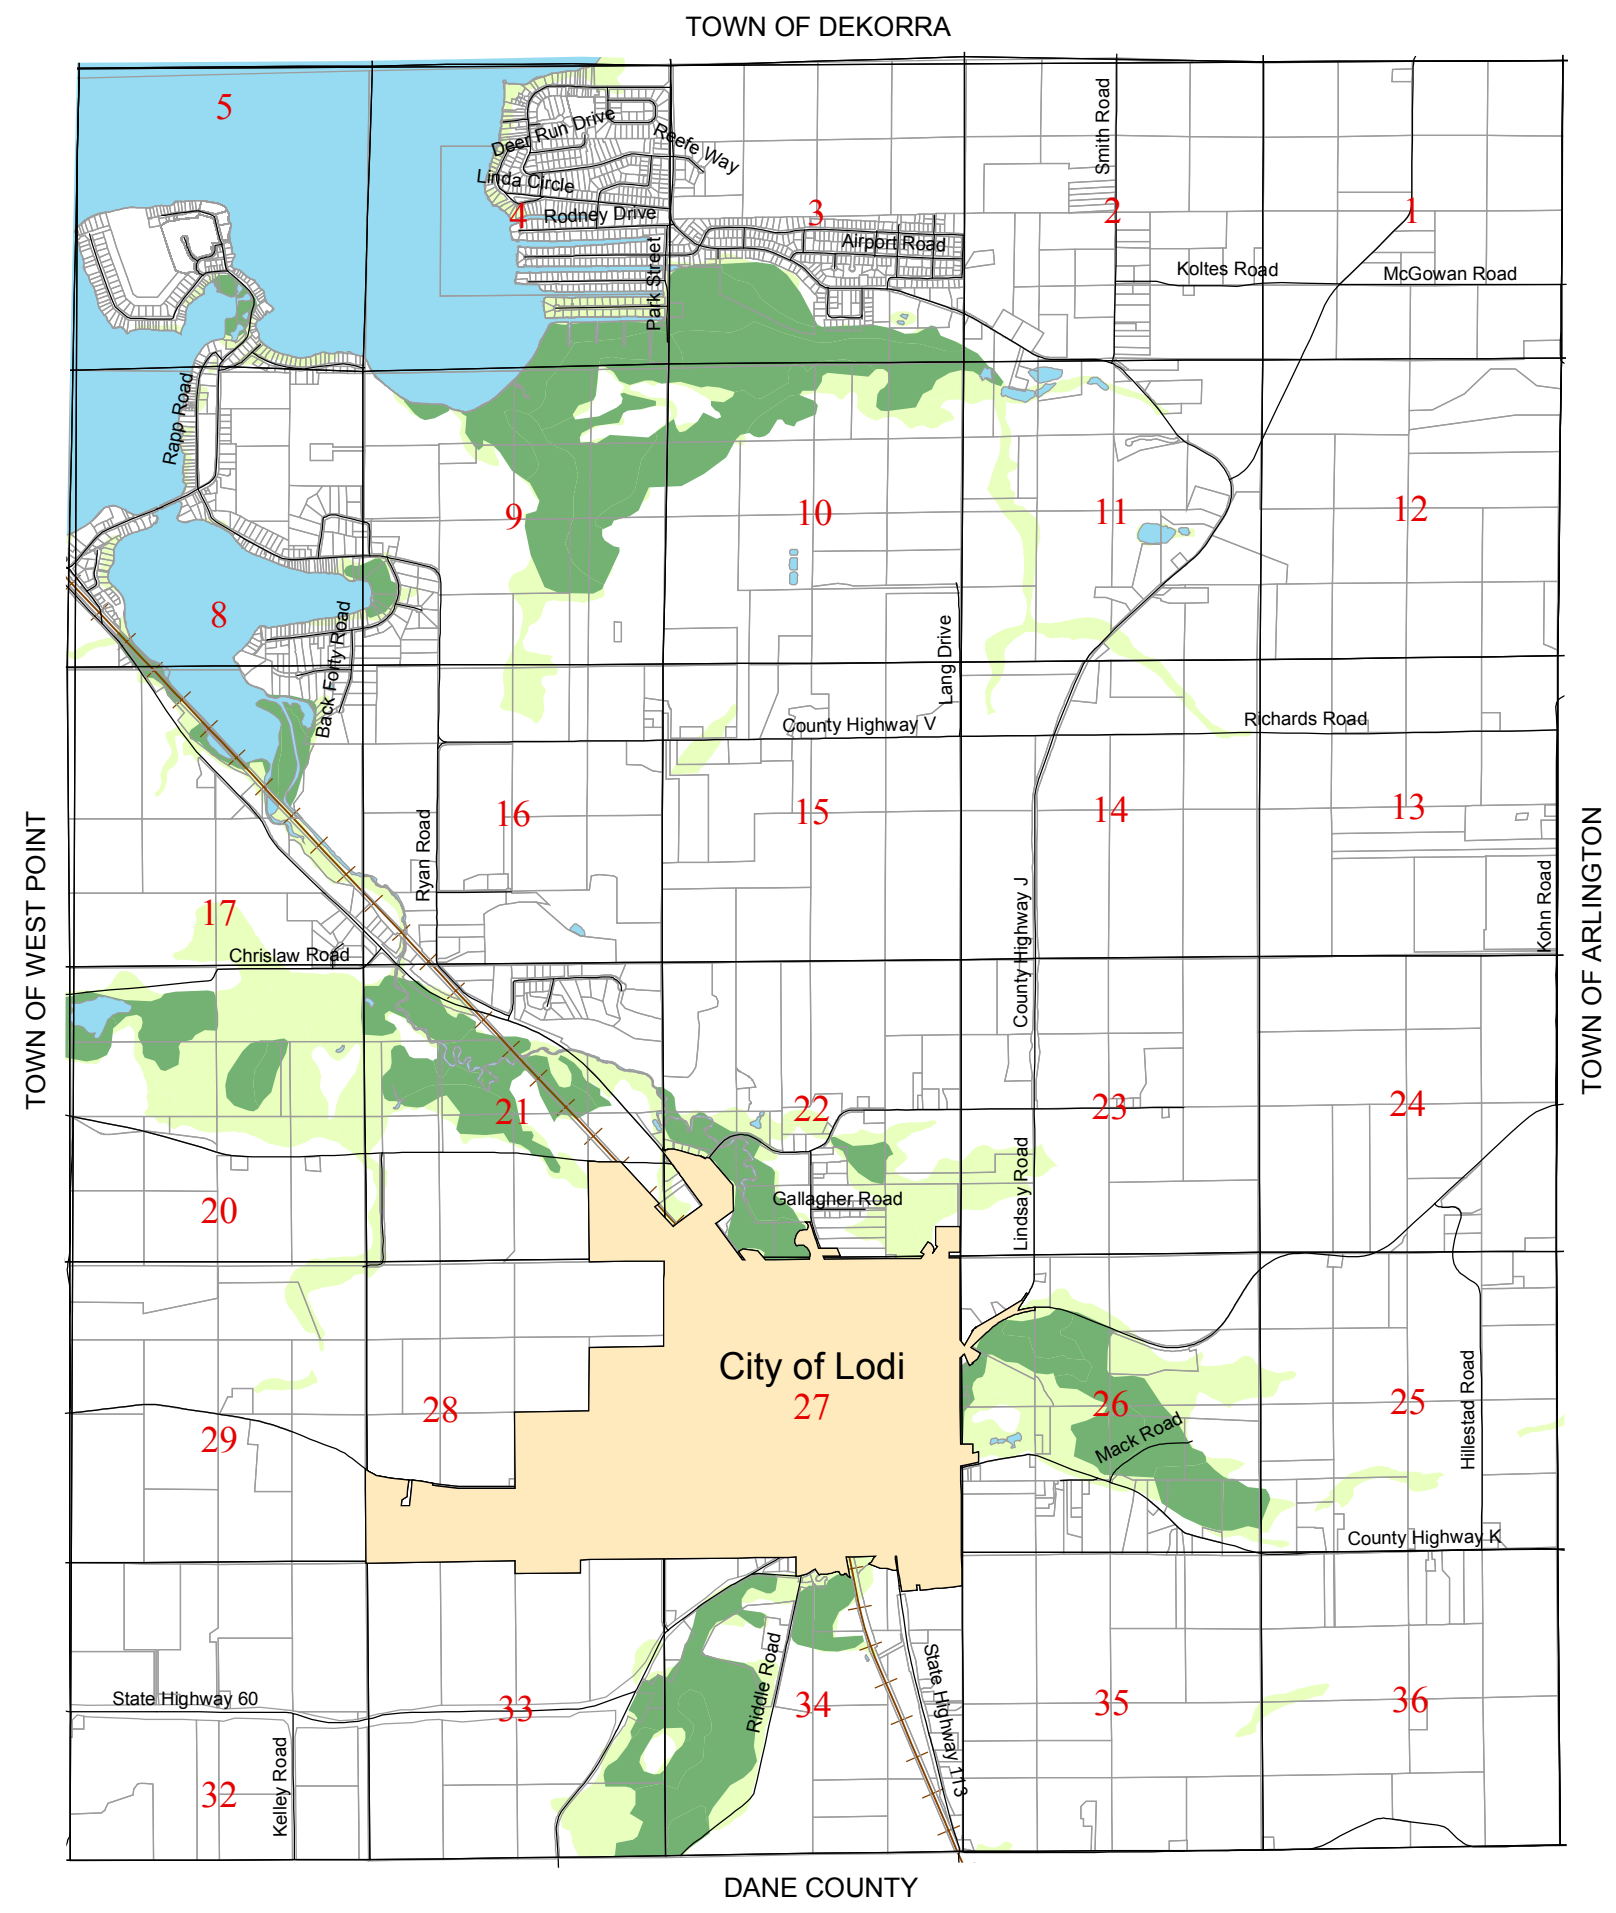

1. Wetlands extracted from WDNR's Wisconsin Wetlands Inventory, which includes mapped wetlands at least 5 acres in size derived mainly from air photo interpretation. All wetlands subject to state or federal regulations may not be shown.
2. A hydric soil is a soil formed under conditions of saturation, flooding, or ponding long enough during the growing season to develop anaerobic conditions in the upper part. They are generally not advised for building construction.

This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

MAP 5-12
ARCHAEOLOGICAL &
HISTORIC SITES
Town of Lodi
Columbia County,
Wisconsin

- Archaeological Sites¹
- Historic Sites & Places²

1. The Archaeological Site Inventory (ASI) does not include all of the archaeological sites, mounds, unmarked cemeteries, marked cemeteries, and cultural sites that are present. It includes only those sites that have been reported to the Wisconsin Historical Society. It is estimated that less than one percent of the archaeological sites in the state have been identified.

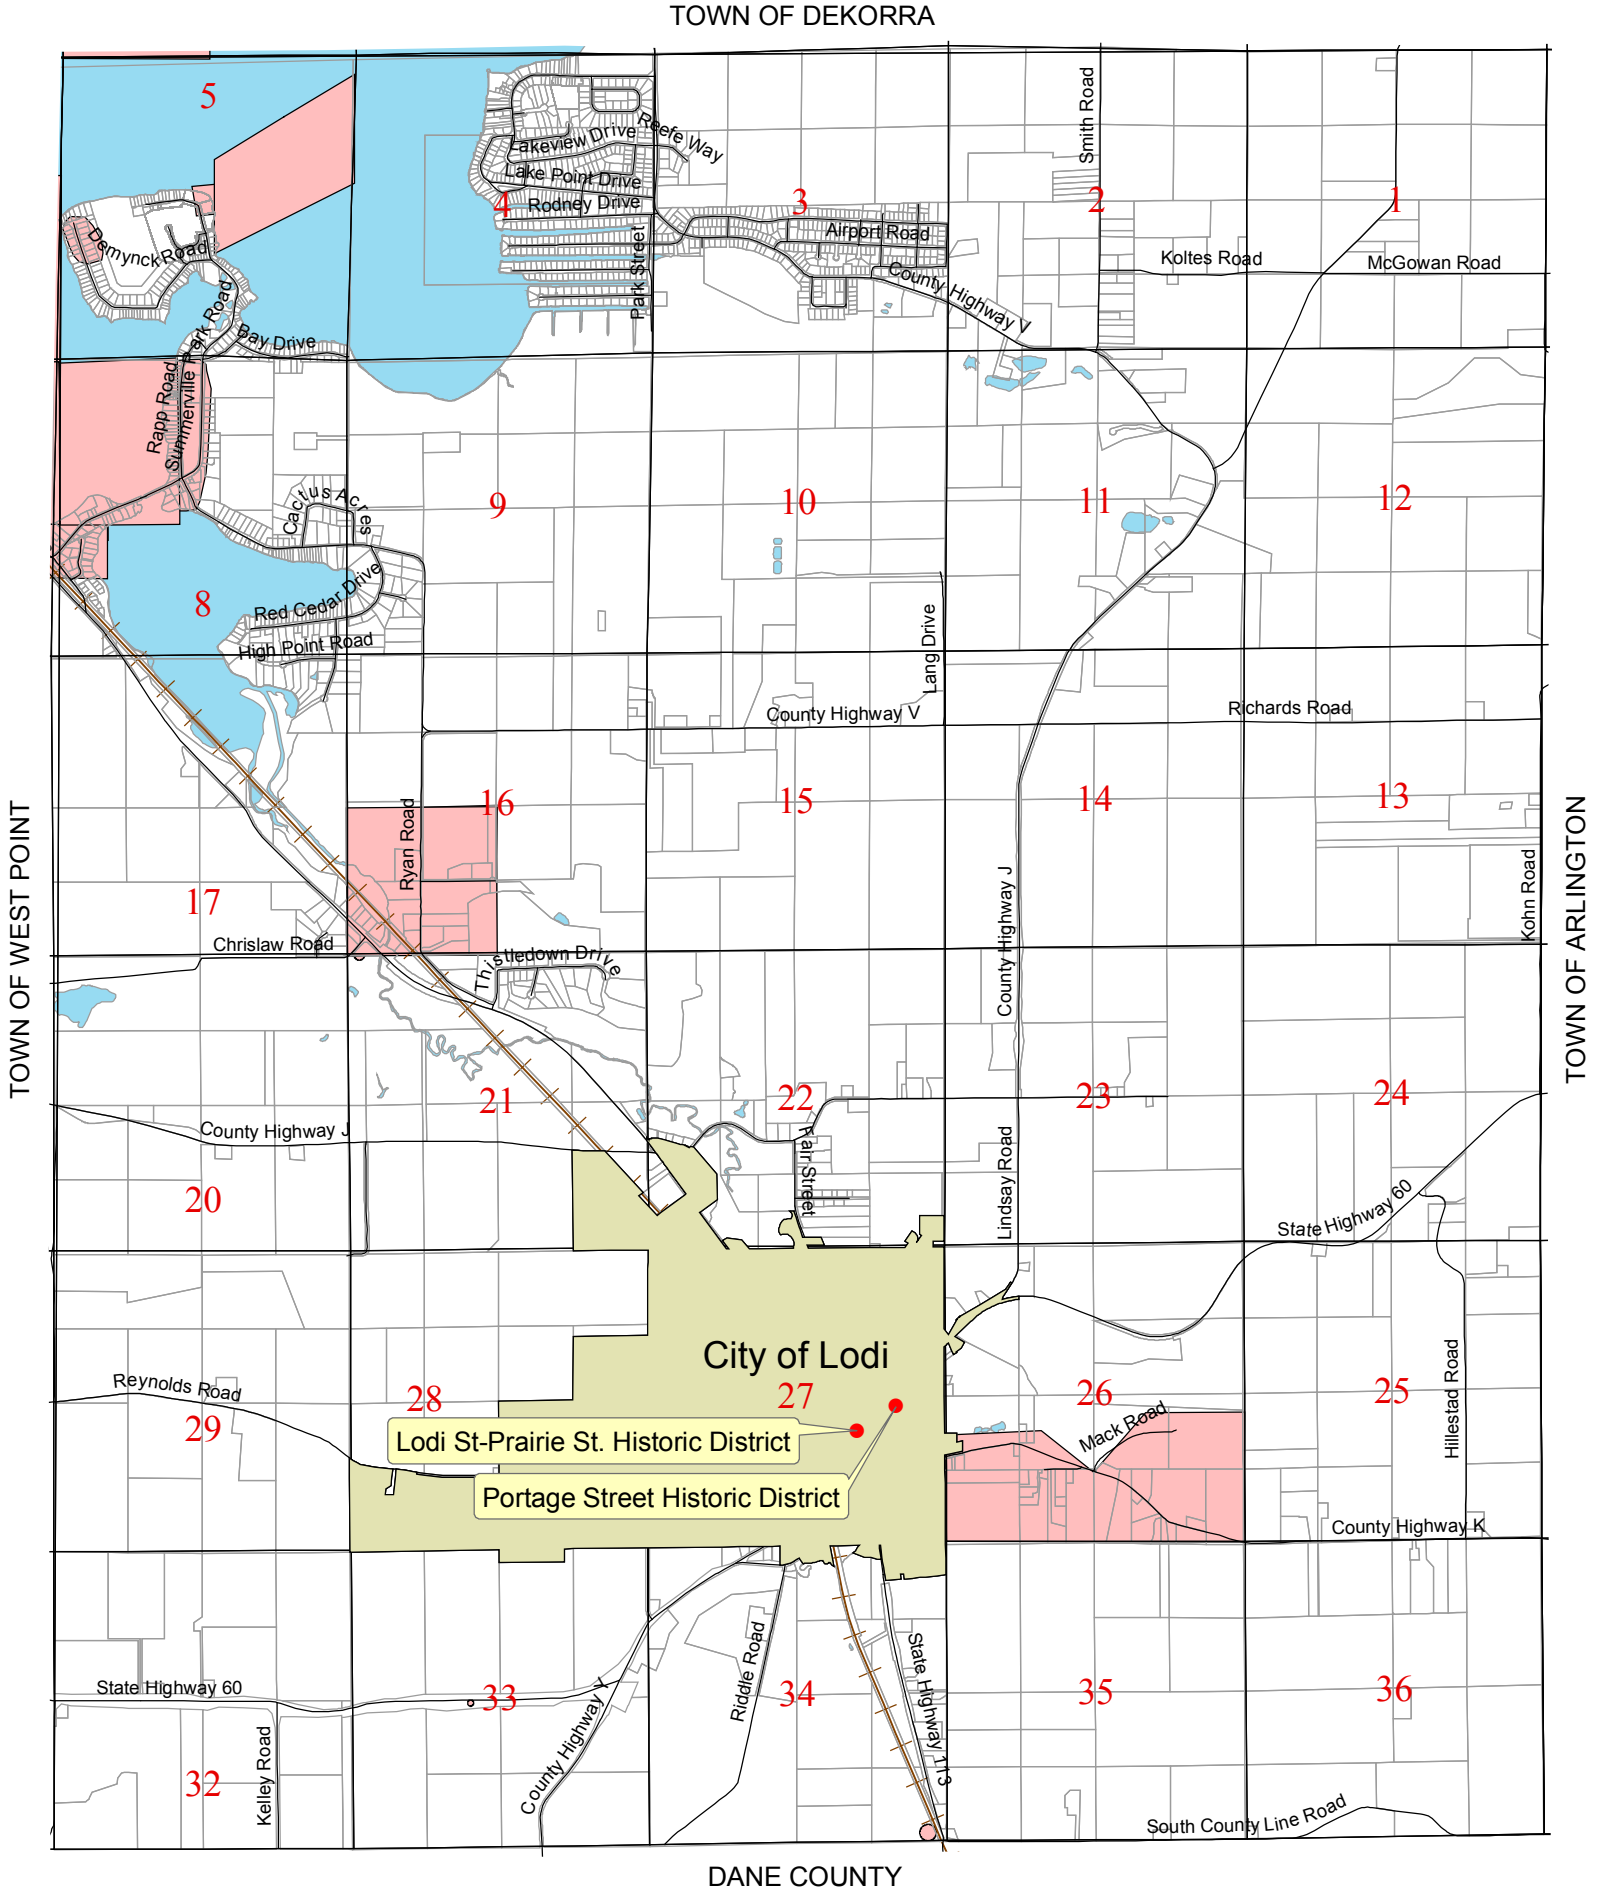

2. The National Register of Historic Places recognizes properties of local, state, and national significance. The Wisconsin State Register of Historic Places also recognizes significant historic sites. Properties are listed in the National and State Register because of their associations with significant historic events, persons, architecture or engineering.

This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.
