

Columbia County

Land Disturbance Application

Planning & Zoning Department

Pursuant to Columbia County Ordinance 12.140.09

Please do not staple checks to this form.

Phone: (608) 742-9660
www.co.columbia.wi.us

112 E. Edgewater St.
Portage, WI 53901

☐ \$210.00
Land Disturbance

Make checks payable to "Columbia County Treasurer". We do not issue refunds. Credit Cards accepted.

Land Disturbance Permits issued by the Planning & Zoning Department must be posted in a prominent place on the premises prior to and during the period of construction, alteration or movement.

1. Land Disturbing Activity:

- ☐ Excavation, Grading, Filling or other Earthmoving Activities 1 Acre or Greater
☐ Land Disturbing Activity Greater than 5,000 Square Feet on Slopes over 12 Percent
☐ Creation of a Surface Water Feature over 5,000 Square Feet in Area (ex. Lake or Pond)
☐ Land Disturbing Activity where high levels of Erosion or Runoff is likely

2. Stormwater and Erosion Control:

Is a Stormwater Management Plan attached to this application?

☐ Yes ☐ No

Is an Erosion Control Plan attached to this application?

☐ Yes ☐ No

Is a Site Plan attached to this application?

☐ Yes ☐ No

3. Size and Description:

Describe Planned Activities	Length	Width	Area

-----Shaded Area for County Use Only -----

Area of Lot	Total Disturbance Footprint	Total Lot Coverage

I certify that the above information is true, accurate and complete.

Portage, WI 53901

A permit issued by the Planning and Zoning Department may not encompass all matters necessary to be permitted in regards to the project. It is the applicant's sole responsibility to comply with applicable law and to review whether a permit(s) from any other Federal, State, County, Town (or other Municipality), or other applicable regulatory agency may be required. In addition, all applicants should contact their Town governments to review whether any additional building or UDC permits are required.

The owner hereby authorizes access to the property described herein, by authorized representatives of the Planning & Zoning Department, for the purpose of gathering or verifying information relating to the application, and for verifying compliance with any approval or permit that may be granted. The applicant further agrees that the site is staked and an inspection of such proposed structure may be made by the Columbia County Planning & Zoning Department between the hours of 8:00 am and 4:30 pm, Monday through Friday.

Applicant agrees to and assumes all responsibility for the matter contemplated by the Application. Such includes, but is not limited to, those factual, alleged or otherwise asserted by any party, legal, monetary, or other considerations applicable to the performance, quality, sustainability or permanence, liability, timeliness, and/or legal compliance of the matter describe within the Application.

Pursuant to §59.691(3) Stats, the applicant must sign this application to indicate acknowledgement of the following, "You are responsible for complying with state and federal laws concerning construction near or on wetlands, lakes and streams". Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Dept. of Natural Resources web page at: <http://dnr.wi.gov/wetlands/programs.html> or contact a Dept. of Natural Resources service center.

The undersigned hereby applies for a permit to do work herein described. The undersigned agrees that all work will be done in accordance with the Columbia County Zoning, Floodplain and Shoreland-Wetland Protection Ordinances, and with all laws of the State of Wisconsin, applicable to said premises.

Zoning Permits issued by the Planning & Zoning Department must be posted in a prominent place on the premises prior to, and during the period of construction, alteration or movement.

A permit issued by the Planning & Zoning Department is issued reflective of the information and statements provided by the applicant. The provision of false, misleading, or fraudulent statements may cause a permit to be later revoked. With this understanding, I certify that all information provided in support of my application is true, accurate, and complete to the best of my knowledge.

Erosion Control and Stormwater Management Standards

Columbia County Zoning Ordinance Chapter 12 Subchapter 140
12.140.09 Erosion Control and Stormwater Management Standards

- (1) **Applicability.** This Subsection is adopted under the authority granted by Wis. Stats. § 59.693. All activities directly related to the planting, growing and harvesting of agricultural crops are not considered land disturbance activities under this Subsection and are, therefore, exempt from all of the requirements of this Subsection. Other land disturbance and development activities shall be subject to the stormwater management and erosion and sediment control provisions of this Subsection, if any of the following conditions are present:
- (a) An area of one acre or greater will be disturbed by excavation, grading, filling, or other earthmoving activities resulting in the loss or removal of protective ground cover or vegetation.
 - (b) Any land disturbing activity over more than 5,000 square feet is to occur on slopes greater than 12 percent.
 - (c) A proposal that creates any surface water feature of over 5,000 square feet in area, such as a lake or pond, will be created.
 - (d) A proposal is made for any specific land use described under [Section 12.155](#) for which a stormwater management plan, grading plan or erosion control plan is required.

If a development is proposed in a town that has its own erosion control and stormwater management standards that either meet or exceed those in this Subsection, the applicant shall meet the town's standards in lieu of the standards included herein.

- (2) **General standards for stormwater management and erosion control.** Stormwater runoff, soil erosion, siltation, or sedimentation from all land disturbing and development activities described in Subsection (A) shall meet standards in NR 151 and 216 and COMM 60 and 20-21, Wis. Adm. Code or shall be controlled in accordance with Technical Guidelines as developed by the U.S. Department of Agriculture, Natural Resources Conservation Service, or the Wisconsin Department of Natural Resources.
- (3) **Construction site erosion control plan.** Prior to the issuance of a zoning permit associated with all land disturbing activities listed under Subsection (1), the applicant shall do one of the following:
- (a) Provide to the Zoning Administrator written evidence of State of Wisconsin approval of a construction site erosion control plan, as applicable;
 - (b) Submit a construction site erosion control plan that meets the technical requirements of NR 216, Wis. Adm. Code and has been stamped by a licensed engineer qualified in erosion control planning; or
 - (c) Submit a construction site erosion control plan that meets the technical requirements of NR 216, Wis. Adm. Code and provide to the Columbia County Planning and Development Department an inspection fee, which will be used by the County to commission a qualified and licensed engineer review the site erosion control plan and practices.
- (4) **Stormwater management plan.** Prior to the issuance of a zoning permit associated with all land disturbing and development activities listed under Subsection (1), the applicant shall submit a plan for ongoing stormwater management, prepared and stamped by a licensed engineer qualified in stormwater management planning. Stormwater management plans required under this Subsection shall be designed to:
- (a) Maintain predevelopment peak runoff discharge rates for the 2-year and 10-year, 24-hour storm events and safely pass the 100-year, 24-hour storm event via an emergency spillway, using the Runoff Curve Numbers designated in Table 12.140.09(1) below for the appropriate site soil hydrological group.

Table 12.140.09(1): Maximum Pre-Development Runoff Curve Numbers (CN)				
<u>Hydrological Soil</u>	<u>A</u>	<u>B</u>	<u>C</u>	<u>D</u>
Woodland	30	55	70	77
Grassland	39	61	71	78
Cropland	55	69	78	83

- (b) For vacant sites, reduce the average total suspended solids load by 80% as compared to no controls for the site. For redevelopment sites, reduce the average total suspended solids by 40%.
 - (c) Encourage infiltration of stormwater to reduce volume of runoff. If stormwater infiltration can be demonstrated, the reduced volume may be taken into account when designing practices to meet other requirements of this Subsection.
- (5) **Enforcement.** Within 30 days following completion of approved stormwater management plan improvements, the applicant shall submit to the Columbia County Planning and Zoning Department either of the following:
- (a) An inspection fee, which will be used by the County to commission a qualified and licensed engineer to review the development site to ensure that all required improvements have been constructed or installed in accordance with approved plans.
 - (b) An as-built drawing indicating the improvements that have been constructed or installed, stamped by a licensed engineer qualified in erosion control and stormwater management.
- (6) **Installation and maintenance.** All construction site erosion control measures shall be installed prior to the land disturbance activity, and maintained by the lot owner throughout the duration of the land disturbance activity. All permanent stormwater management measures shall be installed prior to occupancy of the lot or building, and shall be maintained by the lot owner in perpetuity. If the lot owner fails to maintain the erosion control or stormwater management measures, the Town or County may enter the property and perform maintenance activities and assess the cost of doing so against the property as a special charge pursuant to Wis. Stats. § 66.0627.
