This quilt, on the home of Patti and Keith Rumisek, was designed by Patti. She wanted the design to be a "Welcome to Our Home." She designed it to tell a story about her and her husband. It starts out with the friendship pattern in blue, with a birdhouse for their love of all the birds they watch, a basket for her love of making baskets and for the flower that she loves to plant, the scrappy pattern is for her husband who is a scrapper of old junk, and the bear in the center is for her love of bears. The four corners are bear paws giving hugs to everyone that comes to visit. Three retired school teachers from Boscobel did the artwork.

If you are in the neighborhood, check us out!
