

## Revolving Loan Fund

October 18, 2006

6:45 p.m.

**Present:** Chair Tramburg, Supervisor Wopat, Hamele, Wopat and County Board Chair

**Also Present:** Jennifer Montero, Administrative Services CCAC, Inc. Comptroller Schepp and County Clerk Miller

**Excused:** Mark Witt

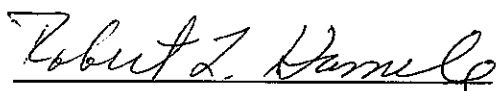

Request was received for Revolving Loan Funds to assist in the replacement of a well. Estimated costs could run as high as \$8,000 to drill a new well. Montero discussed that drilling depth of the new well would determine final cost for the project.

Costs for this project would be offset by the homeowner's application for funding through the Wisconsin Fund. This program would reimburse the homeowners \$5,000, bringing their system up-to-code. Once reimbursement of the homeowners is made, the check would then be signed over to the Columbia County Revolving Loan Fund.

Motion was made by Supervisor Hamele, second by Supervisor Baumgartner to recommend that the Revolving Fund provide the additional upfront funding for the replacement of Barrons well approving a maximum of \$5,000. Motion carried.

Motion to adjourn the meeting at 6:55 p.m. was made by Supervisor Wopat, second by Supervisor Hamele. Motion carried.
