

About Us

At the Pauquette Center, our Columbia County Community Support Program is here to support adults managing serious mental illness. As a state-certified provider, we offer a full range of services—including mental health care, substance use support, and case management—to help you navigate your journey to wellness.

Community Support Programs (CSP), which offer comprehensive care and treatment for adults with serious mental illnesses, including schizophrenia, schizoaffective disorder, major depressive disorder, delusional disorder, and bipolar 1 disorder.

As a specialized wrap-around mental health program, CSP provides services in participants' homes and community locations to reduce symptoms and support recovery. Our Primary goals are to reduce inpatient hospitalizations and improve quality of life through individualized treatment and outreach.

To qualify for the program, individuals must be Columbia County residents with an above qualifying diagnosis that creates barriers to daily living. Please note that priority is given to those with a history of high-risk behavior. These services are covered by Wisconsin Medicaid.

Empowering Recovery & Independence

Pauquette Center Columbia County Community Support Program (CSP) features a highly trained team dedicated to helping individuals with serious mental illness reclaim their autonomy. We provide comprehensive assessment and personalized treatment by:

- **Stabilizing Life Transitions** – Supporting those with a history of frequent psychiatric hospitalizations or disruptions in work, school, and housing.
- **Reducing Crisis Intervention** – Proactively working to minimize the need for acute hospital stays through consistent, community-based care.
- **Collaborative Goal Setting** – Utilizing a shared decision-making model to ensure clients are the primary architects of their own recovery.
- **Medication Optimization** – Partnering with individuals to identify the most effective clinical support at the lowest possible dosages.

- **Promoting Autonomy** – Assisting clients in securing and maintaining the least restrictive living environments to maximize self-sufficiency.
- **Academic & Vocational Success** – Providing the tools and encouragement needed to reach educational and employment milestones.
- **Fostering Connection** – Supporting consumers in building and sustaining healthy, meaningful relationships within their community.
