# Access to Mental Health or Substance Abuse Services

## How can I get help?

If you have private health insurance, you should contact your insurance to find out what your insurance covers and where you can go.

Medicaid and Medicare have different coverage depending on what program you are in. You should contact the number listed on the back of your card to see whether your plan covers behavioral health services.

Columbia County Health and Human Services provides access to mental health and substance abuse services for individuals who do not have insurance. Services are available on a sliding fee scale.

To find out if you are eligible for county funded services call Health and Human Services at (608)742-9227.

For additional information about behavioral health resources please contact:

Columbia County Health and Human Resources: (608)742-9708
